Metropolitan Planning Organization

Listing of Federally Obligated Projects Fiscal Year 2016 (Oct. 1, 2015-Sept. 30, 2016)

March 9, 2017

D R A F T

Introduction and Background

On December 4th, 2015, President Obama signed into law the Fixing America's Surface Transportation Act (FAST Act) which currently allocates federal funding for surface transportation programs. In an effort to improve the transparency of the expenditure of Federal transportation funds, Section 1201 of the FAST Act compels states and Metropolitan Planning Organizations (such as the Charleston Area Transportation Study, or CHATS) to publish annual lists of projects where federal funds were obligated. Specifically, states and MPOs must produce a report that shows *“the number of projects selected for funding for each fiscal year, including the aggregate cost and location of projects selected.”*

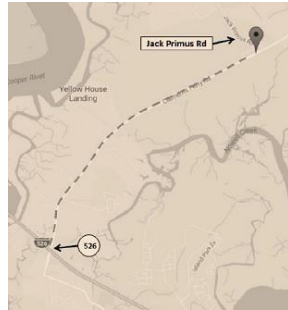

The State of South Carolina, public transit operators, and CHATS coordinated their efforts to generate the information contained in this report. The report covers funding obligated during the period from October 1, 2015 to September 30, 2016, constituting Federal Fiscal Year (FFY) 2016. To be included in this listing, an obligated project must be either entirely or partially located within CHATS' transportation planning area. The obligated amounts shown in the report are attributable to entire projects, including those portions located outside of the planning area. The planning area is currently slightly above 1,000 square miles comprised of the tri-county region's most urbanized areas. The study area contains all of the land expected to be urbanized within the next 20 years and portions of all three counties in the BCD Region are included. CHATS is governed by a 47-member policy commission representing governmental and transportation-related organizations from throughout its coverage area.

Summary of Federally Funded Projects in CHATS Region

This report indicates that over \$52 million in federal funds were obligated for transportation projects in the region for the FFY 2016. The funding consists of over \$39 million of Federal Highway Administration (FHWA) funds for roads, roadway operations, bicycle/pedestrian facilities, bridge projects, and transportation enhancements. The FHWA projects represent 75 percent of the federal funds obligated for transportation projects in the region. A total of more than \$12 million in Federal Transit Administration (FTA) funds were obligated for transit projects throughout the CHATS region. The FTA funds represent 25 percent of the federal funds obligated for projects within the region.

One of the larger obligations last year was for the Clements Ferry Road Widening project. For FFY 2016 this project received federal funding obligation for approximately \$18 million for road construction (a smaller fraction for engineering and inspection). This project consists of widening Clements Ferry Road for approximately 4 miles from I-526 to Jack Primus Road. The improvements involve widening the two-lane roadway to a five-lane curb and gutter section, with a raised planted median and multi-use path along one side of the roadway.

Report Organization

This report is intended to provide summary information of projects receiving federal funding during the Federal fiscal year 2016 in a format understandable by anyone interested in surface transportation improvements in the CHATS study area. The report is organized into two sections: FHWA funding and FTA funding. It is presented in tabular format, listing information by project for which federal funds were obligated. For each project the table includes the county the project is located in, a project description, the federal funding source, and the federal dollar amount obligated in FFY 2016.

Obligation is defined as the federal government's legal commitment to pay the federal share of a project's cost. An obligated project is one that has been authorized by a federal agency and funds have been obligated. Projects for which funds have been obligated are not necessarily initiated or completed in the program year, and the amount of the obligation will not necessarily equal the total cost of the project. For FHWA projects, obligation takes place when a project agreement is executed and the state/grantee requests that the funds be obligated. For FTA projects, obligation occurs when the FTA grant is awarded.

De-obligation occurs when funds that have been originally obligated to the state for a specific project has to return that obligation of funds to the federal government. This generally occurs when money that has been set aside for a project has not been fully spent. Thus, the promise of funds is returned to the federal government. The de-obligated funds are identified as negative federal obligation amounts in the attached Listing of Federally Obligated Projects.

Guide to 2016 Obligated Project Listing

Below is a guide to some of the headings and abbreviations used in the following pages.

County	- County or counties the project is located in
Project ID (PIN)	- The SCDOT Project Identification Number assigned to track the project
Project Name	- The name of the project including route designation and number, if applicable (I = Interstate, US = United States, SC = State route, S = Minor state route)
Project Description	- A brief description of the project
Project Type	- Description of the project by type
Project Work Phase	- Description of the type of work to be completed
Federal Obligation	- Amount of federal funds committed to the project
Funding Category	- The federal/state program from which the funds were allocated

D R A F T

Obligation Date - The date in FFY 2016 that the federal funds were obligated

SCDOT Funding Category Descriptions

BR	- Bridge
CAQ	- Congestion Mitigation and Air Quality
EBS	- Equity Bonus
ENH	- Enhancement
ER	- Emergency Relief
HPP	- High Priority
HSP	- Highway Safety Program
IM	- Interstate Maintenance
NHP	- National Highway Performance
NHS	- National Highway System
NSB	- National Scenic Byways
SRS	- Safe Routes to School
STF	- (Local) Sales Tax Fund
STP	- Surface Transportation Program

Annual Listing of Obligated Funds

Ninety days after the end of the fiscal year, the Annual Listing of Federally Obligated Projects will be made available for public review and comment in accordance with the CHATS MPO Public Participation Plan. The listing will also be distributed at the regularly scheduled CHATS Policy Committee public meeting and posted on the BCDCOG website.

County	Project ID (PIN)	Project Name	Project Description	Project Type	Project Work Phase	Federal Obligation Amount	Funding Category	Funding Authorization Date
FHWA Funding								
Beaufort, Berkeley	P028148	2015-2016 Road Safety Audits	Conduct Road Safety Audits for various locations. Multiple consultants will manage the the RSA's.	Feasibility Study	Preliminary Engineering	(\$90,000.00)	HSP	10/30/15
