

SCDOT Requests Public Comment on the Statewide Transportation Improvement Program to Include the Preliminary Engineering, Right of Way, and Construction Phases of Work in FY 2023 to Selected 2021-2022 Closed and Load Restricted Bridge Projects

The South Carolina Department of Transportation (SCDOT) requests comments from the public on the bridge projects identified as part of the 2021-22 Closed and Load Restricted Bridge Program to be included in the 2021-2027 Statewide Transportation Improvement Program (STIP). The SCDOT Commission approved an opportunity for the public to comment on the proposed bridge projects, during its September 15, 2022 meeting.

The public has the opportunity to comment on the action to amend the STIP to include the preliminary engineering, right of way, and construction phases of work for the proposed projects. SCDOT will receive public comment for a 21-day period from **September 20, 2022** through **October 10, 2022**.

SCDOT certifies that these projects were selected in consideration of established priorities as required by federal laws or regulations and in accordance with SC Code of Laws Section 57-1-370 (Act 114) and the SCDOT's 10 Year Plan.

A summary of substantive comments will be available to the Commission. Pending no substantive comments, the projects will be added to a subsequent version of the STIP.

A copy of this press release, along with an interactive map, is available for public review and comment online until **October 10, 2022** at the following links:

To assist those who do not have internet access, a hard copy of this press release and any supporting information are available for public review and comment at the following locations:
