**2045 CHATS LONG RANGE TRANSPORTATION PLAN
AMENDMENT #3 (Draft)**

Amendment (Pending): February 2, 2026

A. PERFORMANCE MEASURES – Safety Performance Measures & Targets

Federal regulations maintained under the Infrastructure Investment and Jobs Act (IIJA) (Pub. L. 117-58, November 15, 2021), require state departments of transportation to establish and report annual safety performance targets. Per federal rules and SCDOT Planning Procedure Agreement PL-2017-01, MPOs and COGs are also required to formally adopt either the State's safety targets or evaluate and set regionally specific targets for highways. As such, the CHATS MPO is amending the CHATS 2045 Long Range Transportation Plan (LRTP) to include the annual highway safety targets set by the South Carolina Department of Transportation (SCDOT) for the 2026 performance period.

CARTA and TriCounty Link (TCL), the local recipient and sub-recipient of public transit funds, are also federally required to establish annual transit related safety targets and report on the agencies' progress toward achieving set targets. Public transportation providers are further directed to share such information with MPOs and states, so all plans and performance reports are coordinated. CARTA and TCL have and will continue to share this data with the CHATS MPO to facilitate its performance-based planning process. The CHATS MPO is amending the CHATS 2045 LRTP to include the transit safety targets set and reported by CARTA and TCL for the 2026 performance period.

Highway Performance

Through the federal rule-making process, the Federal Highway Administration (FHWA) requires state DOTs and MPOs to monitor the transportation system using specific performance measures. These measures are associated with the national goal areas prescribed in MAP-21 and the FAST Act.

Highway Safety

For the 2026 performance period, the CHATS MPO accepts and supports the State of South Carolina's DOT safety targets for all five highway safety performance measures presented in Table 1 below.

Table 1: SCDOT and CHATS Safety Measures Baseline (2020-2024) and State Safety Targets (2026)

Measure	Traffic Fatalities	Fatality Rate*	Serious Injuries	Serious Injuries Rate*	NMU Fatalities and Serious Injuries
State Baseline (2020-2024) Average	1,089	1.86	2,650	4.52	467.2
State Targets (2021-2025) Approved	1,059	1.87	2,549	4.50	467.9
CHATS Baseline (2020-2024) Average	102.6	1.46	372.4	5.28	86.2

Note - *Rate per 100 million vehicle miles traveled

This means CHATS will:

- Address areas of concern for fatalities or serious injuries within the metropolitan planning area through coordination with SCDOT and incorporation of safety considerations on all projects;

- Integrate safety goals, objectives, performance measures, and targets into the planning process; and
- Include the anticipated effect toward achieving the targets noted above within the TIP, effectively linking investment priorities to safety target achievement.

Transit Performance

Recipients and sub-recipients of public transit funds, which can include states, local authorities, and public transportation operators, are required to establish performance targets for safety and to report on their progress toward achieving set targets. Public transportation operators are directed to share information with MPOs and states so that all plans and performance reports are coordinated.

Transit Safety

The Charleston Area Regional Transportation Authority (CARTA) and TriCounty Link (TCL), as required by the federal Public Transportation Agency Safety Plan (PTASP) final rule issued on June 19, 2019, has each developed a PTASP which includes processes and procedures needed to implement a Safety Management System (SMS) for the respective local transit agencies. The CARTA Board of Directors adopted its annual Safety Plan certification on November 19, 2025, and the BCDCOG RTMA Board of Directors certified TriCounty Link's annual Safety Plan update on November 17, 2025.

Included in Tables 2&3 below, are the agencies' targets and summary of performance for the 2025 period, and the targets set for the 2026 performance period. Each agency will continue to report on progress and update targets on an annual basis, and coordinate with the CHATS MPO to ensure that the goals, objectives, measures and targets set in the PTASP are integrated into the MPO's planning processes.

Note - *Rate per 100,000 vehicle revenue miles (VRM); **Average distance (VRM) between major mechanical failures

For the 2026 performance period the CHATS MPO accepts and supports the safety performance measures and targets set in the CARTA and TCL PTASPs. The MPO will continue to work with both transit service providers to achieve these targets.

From: John Cooper, Safety Manager, BCDCOG
Subject: Public Transportation Agency Safety Plan: 2026 Performance Targets
Date: November 19, 2025

The Public Transportation Agency Safety Plan (PTASP) regulation serves as a capstone for a collection of rules making up the Public Transportation Safety Program, including the National Public Transportation Safety Plan Rule, which defines the four performance measures for which transit agencies and MPOs must set targets. Applicable transit operators are required to develop PTASP including processes and procedures implementing a Safety Management Systems (SMS). The CARTA Board of Directors adopted its annual Safety Plan certification on November 19, 2025. Presented below are the 2026 performance targets for the four safety measures.

FTA's PTASP regulation, 49 CFR Part 673, requires the state or transit agency that drafted the Agency Safety Plan to make its safety performance targets available to states and MPOs to aid in the planning process and to coordinate with states and MPOs in the selection of state and MPO safety performance targets. The MPO is responsible for integrating performance measures from PTASP into their planning processes in accordance with 23 CFR §450.306(d)(4) that states "an MPO shall integrate in the metropolitan transportation planning process, directly or by reference, the goals, objectives, performance measures, and targets described in other state

transportation plans and transportation processes, as well as any plans developed under 49 U.S.C. Chapter 53 by providers of public transportation, required as part of a performance-based program...” The regulation lists nine plans that are among those the MPO must integrate into its planning process (23 CFR § 450.306(d)(4)(i)-(viii)), & the PTASP is one of them.

CARTA established the goal to make transit safer for all customers, employees, and the local community through policy development, hazard investigation, data collection, risk analysis, effective oversight programs, and information sharing. Staff will continue to work toward improving processes to ensure the safety of their customers, employees, and the public with the goal of exceeding the performance measures established in the PTASP. CARTA aims to support a robust safety culture, and achieve the highest level of safety performance, meeting all established safety standards with a commitment to safety from the Board of Directors to the executive leadership team and to the frontline employee.

Please feel free to contact me with any questions or for further information. We appreciate the coordinated effort with our member jurisdictions, the CHATS MPO, and SCDOT to improve safety for transit access and transit facilities.

RTMA established the goal to make transit safer for all customers, employees, and the local community through policy development, hazard investigation, data collection, risk analysis, effective oversight programs, and information sharing. Staff will continue to work toward improving processes to ensure the safety of their customers, employees, and the public with the goal of exceeding the performance measures established in the PTASP. RTMA aims to support a robust safety culture, and achieve the highest level of safety performance, meeting all established safety standards with a commitment to safety from the Board of Directors to the executive leadership team and to the frontline employee.

Please feel free to contact me with any questions or for further information. We appreciate the coordinated effort with our member jurisdictions, the CHATS MPO, and SCDOT to improve safety for transit access and transit facilities.
