

APPENDIX I: UPDATES

CARTA APPROVED AND FUNDED AMENITIES

The current Design Guidelines list the baseline cost of a CARTA-approved shelter as \$12,495, excluding engineering and installation. Established in 2021, this figure no longer reflects current market conditions, given increases in material, freight, and component costs.

Recent procurements from Brasco International for both standard CARTA and Mt. Pleasant-style shelters show a significant rise in pricing for the shelter structure and accessories. These amounts represent materials only and do not include engineering, site preparation, labor, or installation.

Based on the latest vendor quotes, the average cost of a standard CARTA shelter (materials only) is now approximately \$25,000, indicating a substantial increase from the 2021 baseline.

Cost Summary Table – Bus Stop Amenities (2025 Update)

#	Item	Description	Unit Cost	Notes
1	Signage & Pole Assembly	Square post, anchor, (2) signs	\$215	Post \$90, Anchor \$25, Signs \$50 each
2	Post-mounted solar light	Signage and pole solar lighting	\$1,100	2020 pricing; no recent quote
3	Concrete Pad	ADA boarding pad	Varies	Site-dependent
4	Bicycle Rack	Dero Downtown Rack	\$258	Square tube secure bicycle rack
5	Solar Shelter Lighting	Standard Brasco shelter	\$2,475	Brasco quote
6	Bench	Brasco bench	\$1,175	Brasco quote
